Psychology of Learning

July 2024- 0 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) What is Psychology?
   A. A Science subject
   B. Is objective perception
   C. An art of living
   D. A thought process
   E. A study of cognitive processes & behavior

   Ans. E= A study of cognitive processes & behavior

QUESTION 2:

2) A broad field of study that explores a variety of questions about thoughts, feelings and actions is -------?
   A. Society
   B. Globalization
   C. Psychology
   D. Social Science
   E. Human Development

   Ans. C= Psychology

NPTEL

QUESTION 3:

3) A systematic assessment that provides information on political views, consumer buying habits and many other topics is called----------?
   A. Standardized test.
   B. Projects
   C. Experiments
   D. Survey
   E. Psychological tests

Ans. D= Survey

QUESTION 4:

4) The word Psyche means ----------?
   A. Body or physique
   B. Mind or soul
   C. Science & spirituality
   D. Mental health
   E. Neuropsychology

Ans. B= Mind or soul

NPTEL

QUESTION 5:

5) Who established psychology laboratory in Germany?

   A. B.F. Skinner
   B. J. Thorndike
   C. Sigmund Freud
   D. David Kolb
   E. Wilhelm Wundt

Ans. E= Wilhelm Wundt

QUESTION 6:

6) To help people to function effectively and fulfill their own unique potential" is the aim of----------?

A. Humanistic psychology
B. Social Psychiatry
C. Philosophy
D. Development studies
E. Sustainable development

Ans. A= Humanistic psychology

QUESTION 7:

7) Behaviorists use a learning process to change abnormal behavior is called----------?

A. Rationalism
B. Experiential intervention
C. Gestalt mechanism
D. Hypotheses verification
E. Conditioning

Ans. E= Conditioning

QUESTION 8:

8) The study of changes in behavior during life time is called ----------.

A. Behaviorism
B. Individual difference
C. Developmental Psychology
D. Maturational theory
E. Genetics or Heredity

Ans. C= Developmental Psychology

NPTEL

QUESTION 9:

9) The study of differences and similarities in the behavior of animals of different species is called ----------.

A. Sociology
B. Social work
C. Rehabilitation studies
D. Comparative Psychology
E. Cultural Psychology

Ans. D= Comparative Psychology

Psychology of Learning

July 2024- 1 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Which of the following is true regarding learning in psychology?

A. The psychology of learning focuses on how people learn and how they interact with the environments in which they have not learnt
B. Learning does not involve any changes in the organism
C. Learning is a relatively temporary change in behavior
D. none of the given

Ans. D= none of the given

Solution: Please go through lecture notes of week-1 (slide no.02) for better understanding.

QUESTION 2:

2) In order to say that learning has occurred, a/an ___ must occur during the lifetime of the organism.

A. hidden change in behavior
B. small change in personality
C. visible change in emotions
D. observable change in behavior

Ans. D= observable change in behavior

Solution: Please go through lecture notes of week-1 (slide no.03) for better understanding.

NPTEL

QUESTION 3:

3) Learning changes the ___ through the process of continuous interactions between the learner and the external environment.

A. physical structure of the brain
B. chemical structure of neurons
C. physical structure of the heart
D. chemical structure of the spinal cord

Ans. A= physical structure of the brain

Solution: Please go through lecture notes of week-1 (slide no.04) for better understanding.

QUESTION 4:

4) Watson, one of the first psychologists to study learning and behavior is known for the ____.

A. Little Albert experiment
B. Little John experiment
C. Little Robert experiment
D. Little Johnny experiment

Ans. A= Little Albert experiment

Solution: Please go through lecture notes of week-1 (slide no.08) for better understanding.

NPTEL

QUESTION 5:

5) Which of the following is **not** explored and described by the psychology of learning?

A. principles of motivation
B. principles of forgetting
C. principles of genetic disorders
D. principles of memory
E. principles of retention

Ans. C= principles of genetic disorders

Solution: Please go through lecture notes of week-1 (slide no.09) for better understanding.

QUESTION 6:

6) The state of ___ may be valuable at the start of a learning experience.

A. conscious incompetence
B. unconscious incompetence
C. conscious over-competence
D. unconscious over-competence

Ans. A= conscious incompetence

Solution: Please go through lecture notes of week-1 (slide no.11) for better understanding.

NPTEL

QUESTION 7:

7) ___ is the decrease in the response that an organism gives to a stimulus to which it is exposed in numerous trials or occasions.

A. Habituation
B. Sensitization
C. Forgetting
D. Meaningful learning

Ans. A= Habituation

Solution: Please go through lecture notes of week-1 (slide no.23) for better understanding.

QUESTION 8:

8) Cooperative learning is shaped by three crucial elements. Which of the following is one of them?

A. formation of heterogeneous groups
B. positive interdependence
C. individual responsibility
D. all of the given

Ans. D= all of the given

Solution: Please go through lecture notes of week-1 (slide no.26-27) for better understanding.

NPTEL

QUESTION 9:

9) Which of the following psychologists is an important contributor to the concept of observational learning?

A. Watson
B. Dewey
C. Bruner
D. Bandura

Ans. D= Bandura

Solution: Please go through lecture notes of week-1 (slide no.28) for better understanding.

QUESTION 10:

10) Which of the following is not considered a pioneer of the behaviorism school of thought in psychology?

A. Watson
B. Skinner
C. Freud
D. Pavlov

Ans. C= Freud

Solution: Please go through lecture notes of week-1 (slide no.37) for better understanding.

Psychology of Learning

July 2024- 2 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) ___ is known as the father of modern psychology.

A. Sigmund Freud
B. Wilhelm Wundt
C. John Watson
D. Lev Vygotsky

Ans. B= Wilhelm Wundt

Solution: Please go through lecture notes of week-2 (slide no.33) for better understanding.

NPTEL

QUESTION 2:

2) Cognitivists objected to behaviorists because they felt that behaviorists ignored the important role of ___.

A. genetics
B. emotions
C. thinking
D. stimulus reaction

Ans. C= thinking

Solution: Please go through lecture notes of week-2 (slide no.35) for better understanding.

QUESTION 3:

3) ___ is viewed as the mainstream for all research on learning designs.

A. Psychoanalysis
B. Positive psychology
C. Cognitivism
D. Evolutionary psychology

Ans. C= Cognitivism

Solution: Please go through lecture notes of week-2 (slide no.37) for better understanding.

QUESTION 4:

4) ___ is a perspective in psychology focusing on the belief that human consciousness cannot be broken down into its elements and is based on the concept of a 'whole'.

A. Cognitivism
B. Behaviorism
C. Gestalt psychology
D. Positive psychology

Ans. C= Gestalt psychology

Solution: Please go through lecture notes of week-2 (slide no.40) for better understanding.

NPTEL

QUESTION 5:

5) Theory of multiple intelligences is given by ___.

A. Howard Gardner
B. Edward C. Tolman
C. German Gestalt
D. Robert J. Sternberg

Ans. A= Howard Gardner

Solution: Please go through lecture notes of week-2 (slide no.46-49) for better understanding.

QUESTION 6:

6) The general intelligence factor, also known as g, is what intelligence tests typically measure and refers only to ___ intelligence.

A. academic
B. practical
C. linguistic
D. kinesthetic

Ans. A= academic

Solution: Please go through lecture notes of week-2 (slide no.51) for better understanding.

NPTEL

QUESTION 7:

7) Cognitive evaluation for planning, attention, simultaneous, and successive processing of individuals can be done through CAS based on PASS theory. CAS here stands for ___.

A. Cognitive Achievement System
B. Cognitive Ability System
C. Cognitive Appraisal System
D. Cognitive Assessment System

Ans. D= Cognitive Assessment System

Solution: Please go through lecture notes of week-2 (slide no.64) for better understanding.

QUESTION 8:

8) BBL is a new science that shapes the learning process and is an approach that is based on the structure and function of the human brain. BBL stands for ___.

A. Biological based learning
B. Brain based learning
C. Biological battery learning
D. Brain biology learning

Ans. B= Brain based learning

Solution: Please go through lecture notes of week-2 (slide no.70) for better understanding.

NPTEL

QUESTION 9:

9) Gagne's Conditions of Learning is also known as ___ Events of Instruction.

A. nine
B. five
C. ten
D. seven

Ans. A= nine

Solution: Please go through lecture notes of week-2 (slide no.81-83) for better understanding.

QUESTION 10:

10) Which of the following is not a type of constructivism?

A. biological
B. cognitive
C. social
D. radical

Ans. A= biological

Solution: Please go through lecture notes of week-2 (slide no.95-97) for better understanding.

Psychology of Learning

July 2024- 3 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Which of the following is not one of the three major processes involved in memory?

A. encoding
B. retrieval
C. storage
D. imagination

Ans. D= imagination

Solution: Please go through lecture notes of week-3 (slide no.02) for better understanding.

QUESTION 2:

2) ___ refers to changing information into a usable form.

A. Storage
B. Recall
C. Encoding
D. Recollection
E. Forgetting

Ans. C= Encoding

Solution: Please go through lecture notes of week-3 (slide no.03) for better understanding.

NPTEL

QUESTION 3:

3) ___ refers to a range of mental processes relating to the acquisition, storage, manipulation and retrieval of information.

A. Cognition
B. Construction
C. Encoding
D. Thinking

Ans. A= Cognition

Solution: Please go through lecture notes of week-3 (slide no.06-) for better understanding.

QUESTION 4:

4) Which of the following is a challenge faced by people with social cognition deficits?

A. talking too much to people
B. responding to well to people
C. difficulty in reading facial expressions
D. difficulty in getting good academic scores

Ans. C= difficulty in reading facial expressions

Solution: Please go through lecture notes of week-3 (slide no.08) for better understanding.

NPTEL

QUESTION 5:

5) Which of the following is **not** true about the assumptions underlying the Information Processing View of Learning?

A. Information processing is analogous to computer processing
B. The human information processing system is interactive
C. There is no limit on how much information can be processed at each stage
D. Information is processed in steps

Ans. C= There is no limit on how much information can be processed at each stage

Solution: Please go through lecture notes of week-3 (slide no.09) for better understanding.

QUESTION 6:

6) ___ prevents the quick disappearance of information from short term memory

A. Rehearsal
B. Encoding
C. Retrieval
D. None of the given

Ans. A= Rehearsal

Solution: Please go through lecture notes of week-3 (slide no.15) for better understanding.

NPTEL

QUESTION 7:

7) The Multicomponent Model of Working Memory is largely attributed to the work by ___

A. Atkinson & Shiffrin
B. Baddeley
C. Piaget
D. Craik & Lockhart

Ans. A= Baddley

Solution: Please go through lecture notes of week-3 (slide no.24-30) for better understanding.

QUESTION 8:

8) ___ memory refers to the events that can be reported from a person's life.

A. Episodic
B. Semantic
C. Procedural
D. None of the given

Ans. A= Episodic

Solution: Please go through lecture notes of week-3 (slide no.34) for better understanding.

NPTEL

QUESTION 9:

9) The memory capacity depends on which of the following?

A. complexity of the synapses
B. spatial and temporal correlations between memories
C. specific way memories are retrieved
D. all of the given

Ans. D= all of the given

Solution: Please go through lecture notes of week-3 (slide no.41) for better understanding.

QUESTION 10:

10) Which of the following is **not** one of the three measurable dimensions of cognitive load?

A. mental effort
B. mental load
C. physical effort
D. performance

Ans. C= physical effort

Solution: Please go through lecture notes of week-3 (slide no.46-49) for better understanding.

Psychology of Learning

July 2024- 4 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) The three main types of thinking in psychology include the following except ___.

A. symbolic
B. creative
C. divergent
D. convergent

Ans. D= convergent

Solution: Please go through lecture notes of week-4 (slide no.02) for better understanding.

NPTEL

QUESTION 2:

2) Young children engaging in imaginative play often engage in ___ thinking.

A. creative
B. divergent
C. symbolic
D. convergent

Ans. C= symbolic

Solution: Please go through lecture notes of week-4 (slide no.03) for better understanding.

QUESTION 3:

3) Which of the following is a way in which we think?

A. in verbal symbols
B. in mathematical symbols
C. in gestures and movements
D. all of the given

Ans. D= all of the given
Solution: Please go through lecture notes of week-4 (slide no.6) for better understanding.

QUESTION 4:

4) People experience the ___ experience when they find the solution to a problem suddenly that had been in their mind for hours or days, late.

A. ''oh no''
B. ''wow''
C. "aha"
D. none of the given

Ans. C= "aha"

Solution: Please go through lecture notes of week-4 (slide no.07) for better understanding.

NPTEL

QUESTION 5:

5) __ knowledge refers to knowledge of terminology and specific details.

A. factual
B. conceptual
C. procedural
D. metacognitive

Ans. A= factual

Solution: Please go through lecture notes of week-4 (slide no.19) for better understanding.

QUESTION 6:

6) Which of the following is **not** true about metacognition?

A. allows people to be dependent on others for their learning
B. often referred to as “thinking about thinking”
C. is crucial for efficient independent learning because it fosters self-reflection
D. is a regulatory system that helps a person understand and control his or her own cognitive performance
E. Metacognition

Ans. A= allows people to be dependent on others for their learning

Solution: Please go through lecture notes of week-4 (slide no.23) for better understanding.

NPTEL

QUESTION 7:

6) Which of the following is **not** an effective way to develop reflective thinking?

A. asking questions
B. self-questioning
C. negotiated learning
D. avoiding reflective discussions

Ans. D= avoiding reflective discussions

Solution: Please go through lecture notes of week-4 (slide no.46) for better understanding.

QUESTION 8:

8) Which of the following is **not** true about creative thinking?

A. It is the ability to consider something in a new way
B. It is not a skill anybody can develop
C. It is the process of nurturing our imagination
D. It is all about developing innovative solutions to problems.
E. It requires a compilation of analytical, problem-solving, organizational and communication skills

Ans. B= It is not a skill anybody can develop

Solution: Please go through lecture notes of week-4 (slide no.47) for better understanding.

NPTEL

QUESTION 9:

9) The ___ stage of the creative thinking process refers to the ''eureka'' moment.

A. insight
B. incubation
C. evaluation
D. preparation
E. elaboration

Ans. A= insight

Solution: Please go through lecture notes of week-4 (slide no.51) for better understanding.

QUESTION 10:

10) In a concept map, two nodes connected with a labeled arrow are called a ___.

A. preposition
B. nodal link
C. schema
D. proposition

Ans. D= proposition

Solution: Please go through lecture notes of week-4 (slide no.71) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Which of the following is **not** a causal factor for extrinsic motivation?

A. rewards
B. social pressure
C. curiosity
D. financial gain
E. punishment

Ans. C= curiosity

Solution: Please go through lecture notes of week-5 (slide no.05-06) for better understanding.

NPTEL

QUESTION 2:

2) ___ refers to realizing the value of developing a skill/behavior.

A. Amotivation
B. Identified regulation
C. Introjected regulation
D. Motivational learning

Ans. B= Identified regulation

Solution: Please go through lecture notes of week-5 (slide no.06) for better understanding.

QUESTION 3:

3) Drive theory is a psychological concept that attempts to explain why and how people behave in the ways they do. It is given by ___.

A. Murray
B. Hull
C. Atkinson
D. Zajonc

Ans. B= Hull

Solution: Please go through lecture notes of week-5 (slide no.12) for better understanding.

QUESTION 4:

4) ___ theory that suggests that people are motivated to take action in order to receive a reward and is based on the idea of operant conditioning.

A. Incentive
B. Arousal
C. Goal setting
D. None of the given

Ans. A= Incentive

Solution: Please go through lecture notes of week-5 (slide no.14) for better understanding.

NPTEL

QUESTION 5:

5) The Yerkes Dodson law gives ___ relationship between arousal and performance.

A. inverted U shaped
B. linear
C. no
D. parabolic

Ans. A= inverted U shaped

Solution: Please go through lecture notes of week-5 (slide no.18-19) for better understanding.

QUESTION 6:

6) The expectancy theory is based on the assumption that ___.

A. our behavior is based on making a conscious choice from a set of possible alternative behaviors
B. individuals are motivated to seek out stimulation when they have low levels of arousal, but will become bored and unmotivated when they become too highly aroused
C. biological needs produce unpleasant states of arousal which people seek to reduce
D. none of the given

Ans. A= our behavior is based on making a conscious choice from a set of possible alternative behaviors

Solution: Please go through lecture notes of week-5 (slide no.21-25, 29) for better understanding.

NPTEL

QUESTION 7:

7) Valence, or the perceived value of reward, would have ___ value if one wants to avoid that reward.

A. one
B. zero
C. positive
D. negative

Ans. D= negative

Solution: Please go through lecture notes of week-5 (slide no.24) for better understanding.

QUESTION 8:

8) Which of the following is **not** true about Maslow's need hierarchy?

A. Needs lower down in the hierarchy must be satisfied before individuals can attend to higher needs
B. Safety needs lie at the bottom of the pyramid
C. Deficiency needs are concerned with basic survival a
D. Growth needs are more psychological needs
E. Motivation is seen as being not just concerned with tension reduction and survival but also with human growth and development

Ans. B= Safety needs lie at the bottom of the pyramid

Solution: Please go through lecture notes of week-5 (slide no.31-35) for better understanding.

NPTEL

QUESTION 9:

9) Self-Determination Theory differentiates between ___ and ___ motivation types.

A. autonomous and controlled
B. autonomous and intrinsic
C. controlled and extrinsic
D. introjected and extrinsic
E. introjected and intrinsic

Ans. A= autonomous and controlled

Solution: Please go through lecture notes of week-5 (slide no.37-39) for better understanding.

QUESTION 10:

10) In achievement motivation, the motive to avoid failure often consists of ___.

A. worries about the consequences of failing
B. self-criticism
C. accelerated heart rate
D. all of the given

Ans. D= all of the given

Solution: Please go through lecture notes of week-5 (slide no.46-47) for better understanding.

July 2024- 6 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Daniel Goleman's work in emotional intelligence (EI) has outlined ___ main areas of this intelligence.

A. three
B. four
C. five
D. six

Ans. C= five

Solution: Please go through lecture notes of week-6 (slide no.03) for better understanding.

NPTEL

QUESTION 2:

2) Which of the following statements is **not** true?

A. Experts even suggested that emotional intelligence/ EQ, is more important than IQ/academic intelligence
B. An individual with high EI is not only aware of what emotions they are feeling but can put words to their feelings
C. Studies show that EI does not impact aspects of one's life like academic performance
D. Peter Salovey and John Mayer were the first to develop a psychological theory of emotional intelligence.

Ans. C= Studies show that EI does not impact aspects of one's life like academic performance

Solution: Please go through lecture notes of week-6 (slide no.03-04) for better understanding.

QUESTION 3:

3) ___ refers to how tuned to the emotions of others a person is.

A. Empathy
B. Motivation
C. Emotional literacy
D. Self regulation

Ans. A= Empathy

Solution: Please go through lecture notes of week-6 (slide no.05) for better understanding.

QUESTION 4:

4) The following are advantages of developing emotional intelligence, except------

A. Being able to accept criticism and responsibility
B. Knowing why we do the things we do
C. Being able to say no when we need to
D. Being able to hide our feelings from others

Ans. D= Being able to hide our feelings from others

Solution: Please go through lecture notes of week-6 (slide no.10) for better understanding.

NPTEL

QUESTION 5:

5) The Pyramid of Emotional Intelligence is also known as the ___ layer model.

A. nine
B. five
C. seven
D. eleven

Ans. A= nine

Solution: Please go through lecture notes of week-6 (slide no.13) for better understanding.

QUESTION 6:

6) EI can be developed at any stage of life through self-effort & training.

A. True
B. False

C. Ans. A= True

Solution: Please go through lecture notes of week-6 (slide no.20) for better understanding.

QUESTION 7:

7) When someone engages in___, they can regulate their emotions to ensure that others feel more comfortable.

A. emotional exhaustion
B. emotional literacy
C. empathy
D. emotional labor

Ans. D= emotional labor

Solution: Please go through lecture notes of week-6 (slide no.30) for better understanding.

NPTEL

QUESTION 8:

8) The management of emotions is ___.

A. a private act
B. influenced by cultural and social norms
C. done by actively shaping and directing feelings
D. all of the given

Ans. D= all of the given

Solution: Please go through lecture notes of week-6 (slide no.30) for better understanding.

QUESTION 9:

9) ___ is seen when workers change their outward emotional expressions but do not attempt to feel the emotions that they are displaying.

A. deep acting
B. emotional contagion
C. surface acting
D. emotional literacy

Ans. C= surface acting
Solution: Please go through lecture notes of week-6 (slide no.32) for better understanding.

QUESTION 10:

10) The concept of emotional contagion can be linked to biological basis of ___.

A. emotional neurons
B. mirror neurons
C. contagious neurons
D. None of the given

Ans. B= mirror neurons
Solution: Please go through lecture notes of week-6 (slide no.36) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) ___ defined learning as 'a change in human disposition or capacity that persists over a period of time and is not simply ascribable to processes of growth.

A. Bloom
B. Dewey
C. Gagne
D. Kolb

Ans. C= Gagne

Solution: Please go through lecture notes of week-7 (slide no.03) for better understanding.

NPTEL

QUESTION 2:

2) The principles of contiguity (how close in time two events must be for a bond to be formed) and reinforcement (any means of increasing the likelihood that an event will be repeated) are central to explaining the learning process in the ___ orientation to learning.

A. Cognitive
B. Humanistic
C. Social and social-constructivist
D. Behaviorist

Ans. D= Behaviorist

Solution: Please go through lecture notes of week-7 (slide no.06) for better understanding.

QUESTION 3:

3) Which of the following is **not** true about humanistic orientations to learning?

A. It has a quality of personal involvement
B. It is self-initiated
C. It is pervasive
D. The locus of evaluation resides definitely outside the learner

Ans. D= The locus of evaluation resides definitely outside the learner
Solution: Please go through lecture notes of week-7 (slide no.08) for better understanding.

QUESTION 4:

4) The concept of situated learning is studied under which school of thought of learning theories?

A. behaviorist
B. cognitive
C. humanistic
D. social

Ans. D= social

Solution: Please go through lecture notes of week-7 (slide no.10) for better understanding.

NPTEL

QUESTION 5:

5) Which of the following is **not** one of the individual variable factors affecting learning?

A. ergonomics
B. interest
C. endurance
D. ego
E. perception

Ans. A= ergonomics

Solution: Please go through lecture notes of week-7 (slide no.14) for better understanding.

QUESTION 6:

6) ___ learners prefer maps, graphs, diagrams and charts to learn.

A. Visual
B. Solitary
C. Kinesthetic
D. Auditory

Ans. A= Visual

Solution: Please go through lecture notes of week-7 (slide no.16) for better understanding.

NPTEL

QUESTION 7:

7) ___ learners search for connections, causes, patterns, and results in their learning.

A. linguistic
B. kinesthetic
C. visual
D. logical

Ans. D= logical

Solution: Please go through lecture notes of week-7 (slide no.18) for better understanding.

QUESTION 8:

8) Effective instruction is ___.

A. interactive, generative and dynamic
B. designed to accommodate student learning needs and styles
C. guided by general pedagogical approaches
D. eclectic
E. all of the given

Ans. E= all of the given

Solution: Please go through lecture notes of week-7 (slide no.22) for better understanding.

NPTEL

QUESTION 9:

9) ___ role of the trainer consists of transmitting information about a subject to the audience.

A. expert
B. instructor
C. facilitator
D. co-learner

Ans. A= expert

Solution: Please go through lecture notes of week-7 (slide no.25) for better understanding.

QUESTION 10:

10) Which of the following is **not** a component of the ADDIE model?

A. analysis
B. integration
C. development
D. evaluation

Ans. B= integration

Solution: Please go through lecture notes of week-7 (slide no.33-38) for better understanding.

Psychology of Learning

July 2024- 9 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) E-learning implies ___ learning
   A. mentor assisted
   B. teacher enhanced
   C. computer enhanced
   D. electricity enhanced

   Ans. C= computer enhanced

   Solution: Please go through lecture notes of week-9 (slide no.05) for better understanding.

NPTEL

QUESTION 2:

2) ___ type of e-learning is highly interactive, which includes graphics, video, audio and games too.
   A. text driven
   B. simulation
   C. interactive
   D. none of the given

   Ans. B= simulation

   Solution: Please go through lecture notes of week-9 (slide no.06) for better understanding.

QUESTION 3:

3) Which of the following is **not** true about e-learning?

A. one can have access to the content any number of times
B. it helps in developing new policies
C. it saves time for the students, they don't need to travel to the institution
D. it is targeted to cater to the needs of students specifically

Ans. D= it is targeted to cater to the needs of students specifically

Solution: Please go through lecture notes of week-9 (slide no.06-09) for better understanding.

QUESTION 4:

4) As learning depends on the learner's prior experience, and no two learners will have the same experiences, new information will be dealt with in different ways by different learners. This statement means that learning is ___.

A. goal-oriented
B. dependent on self-awareness
C. social

Ans. D= idiosyncratic

Solution: Please go through lecture notes of week-9 (slide no.10-11) for better understanding.

NPTEL

QUESTION 5:

5) Which of the following is a way of facilitating the social dimension to learning?

A. e-mails
B. online discussions
C. virtual communities
D. all of the given

Ans. D= all of the given

Solution: Please go through lecture notes of week-9 (slide no.12) for better understanding.

QUESTION 6:

6) We can say that when we're good at something after practice, it's usually because ___

A. our brain has become automated
B. our brain has released better chemicals
C. our brain has made stronger connections with this information
D. our brain has prioritized this information over others

Ans. C= our brain has made stronger connections with this information

Solution: Please go through lecture notes of week-9 (slide no.15) for better understanding.

NPTEL

QUESTION 7:

7) Learners may multitask when engaging in an online course, which could be resulting in ___.

A. hyperfocus
B. better retrieval
C. shorter attention spans
D. None of the given

Ans. C= shorter attention spans

Solution: Please go through lecture notes of week-9 (slide no.19) for better understanding.

QUESTION 8:

8) The cognitive load theory suggests that when we overload our___, we are unable to acquire and process new information.

A. sensory memory
B. encoding
C. retrieval
D. working memory

Ans. D= working memory

Solution: Please go through lecture notes of week-9 (slide no.18) for better understanding.

NPTEL

QUESTION 9:

9) There are five critical aspects of psychology which are needed to guarantee the implementation of successful eLearning. Which of the following is **not** one of them?

A. evolution
B. self-discipline
C. stress
D. emotion

Ans. A= evolution

Solution: Please go through lecture notes of week-9 (slide no.23) for better understanding.

QUESTION 10:

10) ___ is a learning tool, because the explicit navigation of the topic and association types might enable meaningful learning and it helps to reduce the cognitive loads caused by E-learning content and constant attention.

A. topic map
B. schema
C. prototype
D. instructional map

Ans. A= topic map

Solution: Please go through lecture notes of week-9 (slide no.25) for better understanding.
