   Ans. c= Psychology

QUESTION 3:

3) A systematic assessment that provides information on political views, consumer buying habits and many other topics is called----------?
   a. Standardized test.
   b. Projects
   c. Experiments
   d. Survey
   e. Psychological tests

   Ans. d= Survey

QUESTION 4:

4) The word Psyche means ----------?
   a. Body or physique
   b. Mind or soul
   c. Science & spirituality
   d. Mental health
   e. Neuropsychology

   Ans. b= Mind or soul

QUESTION 5:

5) Who established psychology laboratory in Germany?

   a. B.F. Skinner

   b. J. Thorndike

   c. Sigmund Freud

   d. David Kolb

   e. Wilhelm Wundt

   Ans. e= Wilhelm Wundt

QUESTION 6:

6) To help people to function effectively and fulfill their own unique potential" is the aim of----------?

a. Humanistic psychology

b. Social Psychiatry

c. Philosophy

d. Development studies

e. Sustainable development

Ans. a=Humanistic psychology

QUESTION 7:

7) Behaviorists use a learning process to change abnormal behavior is called----------?

a. Rationalism

b. Experiential intervention

c. Gestalt mechanism

d. Hypotheses verification

e. Conditioning

Ans. e= Conditioning

QUESTION 8:

8) The study of changes in behavior during life time is called ----------.

a. Behaviorism

b. Individual difference

c. Developmental Psychology

d. Maturational theory

e. Genetics or Heredity

Ans. c= Developmental Psychology

QUESTION 9:

9) The study of differences and similarities in the behavior of animals of different species is called ----------.

a. Sociology

b. Social work

c. Rehabilitation studies

d. Comparative Psychology

e. Cultural Psychology

Ans. d= Comparative Psychology

Psychology of Learning

July 2025- Week 1 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Which of the following is true regarding learning in psychology?

a. Learning has not been an important topic in psychology
b. Learning involves no change in the organism
c. Learning focuses on how humans speak
d. Learning can be defined in many ways

Ans.= d

Solution: Please go through lecture notes of week-1 (slide no.02) for better understanding.

QUESTION 2:

2) Learning is seen as an effect attributed to an element in ___.

a. blood
b. environment
c. hormones
d. none of the above

Ans.= b

Solution: Please go through lecture notes of week-1 (slide no.03) for better understanding.

QUESTION 3:

3) Non-associative learning refers to ___ in the intensity of a response as the result of the repeated presentation of a stimulus.
   a. a decrease
   b. an increase
   c. no change
   d. none of the above

   Ans.= a

   Solution: Please go through lecture notes of week-1 (slide no.04) for better understanding.

QUESTION 4:

4) Which of the following is a type of learning style?
   a. visual
   b. auditory
   c. kinesthetic
   d. all of the above

   Ans.= d

   Solution: Please go through lecture notes of week-1 (slide no.05) for better understanding.

QUESTION 5:

5) 'Psychology as the Behaviorist Views It' is the famous work of ___.

   a. Sigmund Freud
   b. John Watson
   c. Albert Bandura
   d. Ivan Pavlov

   Ans.= b

   Solution: Please go through lecture notes of week-1 (slide no.08) for better understanding.

QUESTION 6:

6) The state of conscious incompetence may be valuable ___ of a learning experience.

a. at the start
b. at the end
c. in the middle
d. throughout the process

Ans.= a

Solution: Please go through lecture notes of week-1 (slide no.11) for better understanding.

QUESTION 7:

7) Adding to existing student knowledge is known as ___.

a. conceptual change
b. conceptual pattern
c. conceptual exploration
d. conceptual growth

Ans.= d

Solution: Please go through lecture notes of week-1 (slide no.17) for better understanding.

QUESTION 8:

8) Deliberate practice involves the following, except ___.

a. attention
b. rehearsal
c. repetition
d. forgetting

Ans.= d

Solution: Please go through lecture notes of week-1 (slide no.19) for better understanding.

QUESTION 9:

9)
Students persist in the face of challenging tasks and process information more deeply when they adopt ___ goals.

a. performance
b. insignificant
c. mastery
d. repetitive

Ans.= c

Solution: Please go through lecture notes of week-1 (slide no.20) for better understanding.

QUESTION 10:

10) ___ refers to a decrease in response rate while ___ refers to an increase in response rate.

a. sensitization, habituation.
b. meaningful learning, association
c. habituation, sensitization
d. association, meaningful learning

Ans.= c

Solution: Please go through lecture notes of week-1 (slide no.23) for better understanding.

Psychology of Learning

July 2025- Week 2 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) According to constructivism, reality is determined by ___ .

   a. the experiences of the learner
   b. the blood type of the learner
   c. the future goals of the learner
   d. none of the above

   Ans.= a

   Solution: Please go through lecture notes of week-2 (slide no.94) for better understanding.

QUESTION 2:

2) Teachers and instructors who understand the constructivist learning theory understand that their students ___.

   a. are all the same
   b. bring their own unique experiences
   c. do not demand much effort in the classroom
   d. are careless

   Ans.= b

   Solution: Please go through lecture notes of week-2 (slide no.94) for better understanding.

QUESTION 3:

3) The domain of social constructivism is largely attributed to the work done by ___ by adding the focus on societal and peer influence on learning.

a. Jean Piaget
b. Lev Vygotsky,
c. Sigmund Freud
d. John Watson

Ans.= b

Solution: Please go through lecture notes of week-2 (slide no.95) for better understanding.

QUESTION 4:

4) Which of the following is not a major type of learning described by behavioral psychology?

a. classical conditioning
b. operant conditioning
c. observational learning
d. traditional learning

Ans.= d

Solution: Please go through lecture notes of week-2 (slide no.2) for better understanding.

QUESTION 5:

5) Which of the following is true according to behaviorism?

a. all behaviors can be unlearned
b. all behaviors are directed by one's parents
c. all behaviors are fundamentally destructive in nature
d. all behaviors are unobservable

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.4) for better understanding.

QUESTION 6:

6)

In ___ conditioning, presentation of unconditioned stimulus precedes the presentation of the conditioned stimulus.

a. backward
b. delay
c. trace
d. simultaneous

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.9) for better understanding.

QUESTION 7:

7) Smiling and complimenting students for good performance is a type of _____.

a. negative punishment
b. positive punishment
c. negative reinforcement
d. positive reinforcement

Ans.= d

Solution: Please go through lecture notes of week-2 (slide no.22) for better understanding.

QUESTION 8:

8)

Which of the following psychologists was instrumental in engendering the dramatic shift from behaviorism to cognitive theories?

a. Tolman
b. Bruner
c. Gestalt
d. All of the above

Ans.= d

Solution: Please go through lecture notes of week-2 (slide no.39) for better understanding.

QUESTION 9:

9) IQ is a typical measurement for ___.

a. intelligence
b. personality
c. emotions
d. classical learning

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.45) for better understanding.

QUESTION 10:

10) BBL deals with the concept of learning in a ___ context.

a. neuro-physiological
b. cognitive
c. social
d. behavioral

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.68) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Which of the following is true?
   a. Human memory involves the ability to only preserve information
   b. Human memory involves the ability to only recover information
   c. Human memory involves the ability to neither preserve not recover information
   d. Human memory involves the ability to both preserve and recover information

   Ans. d= Human memory involves the ability to both preserve and recover information

   Solution: Please go through lecture notes of week-3 (slide no.02) for better understanding.

QUESTION 2:

2) ___ refers to connections between the nerve cells
   a. Storage
   b. Synapses
   c. Neuron
   d. Blood

   Ans. b= Synapses

   Solution: Please go through lecture notes of week-3 (slide no.02) for better understanding.

QUESTION 3:

3) In order to create a new memory, information must be changed into ___.
   a. a usable form
   b. a long form
   c. a short form
   d. a visual form

   Ans. a= a usable form

   Solution: Please go through lecture notes of week-3 (slide no.03) for better understanding.

QUESTION 4:

4) The memory ___ process allows us to bring stored memories into conscious awareness.
   a. storage
   b. retrieval
   c. encoding
   d. forgetting

   Ans. b= retrieval

   Solution: Please go through lecture notes of week-3 (slide no.04) for better understanding.

QUESTION 5:

5) Which of the following is **not** a major domain of cognition?

   a. Judgment
   b. Attention
   c. Aggression
   d. Intelligence

   Ans. c= Aggression

   Solution: Please go through lecture notes of week-3 (slide no.07) for better understanding.

QUESTION 6:

6) Which of the following is not an assumption of the information processing view?

a. Information is processed in steps or stages
b. There are limits on how much information can be processed
c. The human information processing system is interactive
d. Information processing is analogous to computer processing

Ans. b= There are limits on how much information can be processed

Solution: Please go through lecture notes of week-3 (slide no.9) for better understanding.

QUESTION 7:

7) ___ refers to rote rehearsal of repetition

a. elaborative rehearsal
b. maintenance rehearsal
c. meaningful rehearsal
d. none of the above

Ans. b= maintenance rehearsal

Solution: Please go through lecture notes of week-3 (slide no.15) for better understanding.

QUESTION 8:

8) ___ presentations can enhance working memory capacity

a. multimodal
b. unimodal
c. one by one
d. antimodal

Ans. a= multimodal

Solution: Please go through lecture notes of week-3 (slide no.24) for better understanding.

QUESTION 9:

9) Episodic and semantic memories are categorized under ___ memory

a. procedural
b. structural
c. phonemic
d. declarative

Ans. d= declarative

Solution: Please go through lecture notes of week-3 (slide no.34) for better understanding.

QUESTION 10:

10) According to the neural network model, memory capacity depends on ___

a. complexity of the synapses
b. sparseness of representations
c. spatial and temporal correlations between memories
d. all of the above

Ans. d= all of the above

Solution: Please go through lecture notes of week-3 (slide no.41) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Creative thinking is the ability to generate ___ ideas.
   a. innovative
   b. unconventional
   c. useful
   d. all of the above

   Ans. d= all of the above

   Solution: Please go through lecture notes of week-4 (slide no.03) for better understanding.

QUESTION 2:

2) ___ are representative items within each concept.
   a. Constructs
   b. Symbols
   c. Prototypes
   d. Categories

   Ans. c= Prototypes

   Solution: Please go through lecture notes of week-4 (slide no.04) for better understanding.

QUESTION 3:

3) A mental representation can take the form of a ___.

a. word
b. image
c. sound
d. all of the given

Ans. d= all of the given

Solution: Please go through lecture notes of week-4 (slide no.5) for better understanding.

QUESTION 4:

4) Which of the following is true?

a. Thinking is a lower mental process
b. Thinking is a sub-vocal talking
c. Thinking is unrelated to problem solving
d. We can only think in numbers or words

Ans. b= Thinking is a sub-vocal talking

Solution: Please go through lecture notes of week-4 (slide no.5-7) for better understanding.

QUESTION 5:

5)

Cognitive architecture is a theory about the ___ that create a mind in natural or artificial systems.

a. structures
b. facts
c. images
d. sounds

Ans. a= structures

Solution: Please go through lecture notes of week-4 (slide no.11) for better understanding.

QUESTION 6:

6)

Bloom's Taxonomy is a system of hierarchical models (arranged in a hierarchical rank,) used to categorize ___ into varying levels of complexity.

a. learning objectives
b. attention goals
c. prototypes
d. none of the above

Ans. a= learning objectives

Solution: Please go through lecture notes of week-4 (slide no.13) for better understanding.

QUESTION 7:

7) ___ knowledge refers to knowledge of terminology and specific details.

a. Metacognitive
b. Conceptual
c. Kinesthetic
d. Factual

Ans. d= Factual

Solution: Please go through lecture notes of week-4 (slide no.19) for better understanding.

QUESTION 8:

8)

Choosing to skim subheadings of unimportant information to get to the information we need as a metacognitive skill is called ___.

a. Skimming
b. Rehearsing
c. Self-monitoring
d. Modifying

Ans. a= Skimming

Solution: Please go through lecture notes of week-4 (slide no.25) for better understanding.

QUESTION 9:

9)
___ refers to the ability to regulate your thoughts and set aside any personal biases to come to the best conclusion.

a. Self-regulation
b. Openmindedness
c. Observation
d. Interpretation
e. elaboration

Ans. a= Self-regulation

Solution: Please go through lecture notes of week-4 (slide no.32) for better understanding.

QUESTION 10:

10)
___ method of solving problems refers to a rule that guarantees the solution to a problem

a. imagination.
b. trial and error
c. analogy
d. algorithm

Ans. d= algorithm

Solution: Please go through lecture notes of week-4 (slide no.53) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Motivation is seen as a ___ that drives and directs human behavior.

a. hormonal impulse
b. mental impulse
c. attention deficit
d. judgment delay

Ans. b= mental impulse

Solution: Please go through lecture notes of week-5 (slide no.02) for better understanding.

QUESTION 2:

2) Which of the following is false regarding motivation?

a. Motivation is an internal process
b. Motivation can be directly observed
c. Motivation activates people's actions
d. None of the above

Ans. b= Motivation can be directly observed

Solution: Please go through lecture notes of week-5 (slide no.02) for better understanding.

QUESTION 3:

3) Which of the following does not come under intrinsic motivation?

a. interests
b. social pressure
c. curiosity
d. self-satisfaction

Ans. b= social pressure

Solution: Please go through lecture notes of week-5 (slide no.5) for better understanding.

QUESTION 4:

4) Doing something/behaving well because one feels pressure from within is called ___ .

a. introjected regulation
b. amotivation
c. identified motivation
d. None of the given

Ans. a= introjected regulation

Solution: Please go through lecture notes of week-5 (slide no.6) for better understanding.

QUESTION 5:

5) Which of the following is not a biological need/drive?

a. love
b. food
c. water
d. oxygen

Ans. a= love

Solution: Please go through lecture notes of week-5 (slide no.10-13) for better understanding.

QUESTION 6:

6)

___ theory suggests that people are motivated to take action in order to receive a reward.

a. incentive
b. biological
c. arousal
d. goal setting

Ans. a= incentive

Solution: Please go through lecture notes of week-5 (slide no.14) for better understanding.

QUESTION 7:

7)
The Arousal Theory of Motivation was first proposed by ___.

a. Hall
b. Watson
c. Bandura
d. Murray

Ans. d= Murray

Solution: Please go through lecture notes of week-5 (slide no.17) for better understanding.

QUESTION 8:

8)

___ theory is based on the assumption that our behavior is based on making a conscious choice from a set of possible alternative behaviors.

a. arousal
b. expectancy
c. drive
d. goal setting

Ans. b= expectancy

Solution: Please go through lecture notes of week-5 (slide no.21) for better understanding.

QUESTION 9:

9)
Which of the following is not an attribute of effective goal setting?

a. unrealistic goals
b. specific goals
c. time based goals
d. assignable goals

Ans. a= unrealistic goals

Solution: Please go through lecture notes of week-5 (slide no.27) for better understanding.

QUESTION 10:

10)
Maslow's hierarchy of needs consists of ___ tiers.

a. four
b. three
c. six
d. five

Ans. d= five

Solution: Please go through lecture notes of week-5 (slide no.31-32) for better understanding.

Psychology of Learning

July 2025- Week 6 Assignment

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) ___ is mainly responsible for popularizing emotional intelligence.

a. John Watson
b. Daniel Goleman
c. Sigmund Freud
d. Albert Bandura

Ans. b= Daniel Goleman

Solution: Please go through lecture notes of week-6 (slide no.02) for better understanding.

QUESTION 2:

2) EQ is used to measure ----------.

a. cognitive intelligence
b. memory
c. emotional intelligence
d. attention

Ans. c= emotional intelligence

Solution: Please go through lecture notes of week-6 (slide no.03) for better understanding.

QUESTION 3:

3) Experts suggest that EQ is more important than IQ.

a. True
b. False

Ans. a= True

Solution: Please go through lecture notes of week-6 (slide no.03) for better understanding.

QUESTION 4:

4) Being able to put words to feelings refers to ___.

a. emotional responsibility
b. emotional cognition
c. emotional attention
d. emotional literacy

Ans. d= emotional literacy

Solution: Please go through lecture notes of week-6 (slide no.04) for better understanding.

QUESTION 5:

5) The first step in emotional intelligence is ___.

a. perceiving emotions accurately
b. reasoning with emotions
c. managing emotions
d. dismissing emotions

Ans. a= perceiving emotions accurately

Solution: Please go through lecture notes of week-6 (slide no.11) for better understanding.

QUESTION 6:

6) According to nine-layer model pyramid, ___ lies at the bottom of the pyramid.

a. Emotional stimuli
b. Self awareness
c. Self management
d. Transcendence

Ans. a= Emotional stimuli

Solution: Please go through lecture notes of week-6 (slide no.13) for better understanding.

QUESTION 7:

7) The mixed model by ___ claims that EQ is a combination of competencies, skills, and "facilitators" that contribute to how people express themselves, respond to challenges in their environment, and connect with others.

a. Watson
b. Goleman
c. Salovey and Mayer
d. Bar-On

Ans. d= Bar-On

Solution: Please go through lecture notes of week-6 (slide no.15) for better understanding.

QUESTION 8:

8) The transfer of emotions from one person to another is called ___.

a. social effect
b. emotional effect
c. social contagion
d. emotional contagion

Ans. d= emotional contagion

Solution: Please go through lecture notes of week-6 (slide no.20) for better understanding.

QUESTION 9:

9) Hochschild has given the concept of ___ using the example of flight attendants.

a. emotional indifference
b. emotional difficulty
c. emotional labor
d. emotional literacy

Ans. c= emotional labor

Solution: Please go through lecture notes of week-6 (slide no.30) for better understanding.

QUESTION 10:

Review of literature shows that ___ is associated with increasing levels of burnout.

a. emotional intelligence.
b. deep acting
c. surface acting
d. emotional literacy

Ans. c= surface acting

Solution: Please go through lecture notes of week-6 (slide no.33) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Which of the following is false about learning according to Gagne's definition?
   a. It is a change in human disposition
   b. It persists over a period of time
   c. It is simply ascribable to processes of growth
   d. None of the above

   Ans. c= It is simply ascribable to processes of growth

   Solution: Please go through lecture notes of week-7 (slide no.03) for better understanding.

QUESTION 2:

2) Manual or physical skills come under ___ component of Bloom's taxonomy.
   a. Cognitive
   b. Affective
   c. Psychomotor
   d. Physical

   Ans. c= Psychomotor

   Solution: Please go through lecture notes of week-7 (slide no.04) for better understanding.

QUESTION 3:

3) Reflection, learning and education was explored by ___.
   a. Carl Rogers
   b. John Watson
   c. Benjamin Bloom
   d. John Dewey

   Ans. d= John Dewey

   Solution: Please go through lecture notes of week-7 (slide no.05) for better understanding.

QUESTION 4:

4) The principles of ___ refer to how close in time two events must be for a bond to be formed.

   a. behavior
   b. reinforcement
   c. repetition
   d. contiguity

   Ans. d= contiguity

   Solution: Please go through lecture notes of week-7 (slide no.6) for better understanding.

QUESTION 5:

5) ___ gives information to learners about their success or failure concerning the task at hand.

   a. Cognitive feedback
   b. Emotional feedback
   c. Reinforcement
   d. Physical feedback

   Ans. a= Cognitive feedback

   Solution: Please go through lecture notes of week-7 (slide no.7) for better understanding.

QUESTION 6:

6) The ___ orientation to learning has a quality of personal involvement—the whole person in both feeling and cognitive aspects being in the learning event.

a. behavioral
b. cognitive
c. humanistic
d. social

Ans. = humanistic

Solution: Please go through lecture notes of week-7 (slide no.8) for better understanding.

QUESTION 7:

7) Learning through play is ___ learning.

a. primary
b. secondary
c. passive
d. active

Ans. d= active

Solution: Please go through lecture notes of week-7 (slide no.15) for better understanding.

QUESTION 8:

8) People with ___ learning style are prone to sorting their ideas after speaking, rather than thinking ideas through before.

a. logical
b. solitary
c. visual
d. auditory

Ans. d= auditory

Solution: Please go through lecture notes of week-7 (slide no.17) for better understanding.

QUESTION 9:

9) Which of the following statements is false?

a. Effective instruction is static
b. Effective instruction is eclectic
c. Effective instruction is generative
d. Effective instruction is interactive

Ans. a= Effective instruction is static

Solution: Please go through lecture notes of week-7 (slide no.22) for better understanding.

QUESTION 10:

10) In ADDIE model, I stand for ___.

a. instruction
b. implementation
c. integration
d. induction

Ans. b= implementation

Solution: Please go through lecture notes of week-7 (slide no.33) for better understanding.

TYPE OF QUESTION: MCQ

Number of questions: 10

QUESTION 1:

1) Pedagogy can be defined as a way of ___ any theoretical topic or academic subject.

a. forgetting
b. teaching
c. remembering
d. memorizing

Ans. b= teaching

Solution: Please go through lecture notes of week-8 (slide no.03) for better understanding.

QUESTION 2:

2) Good pedagogy is about ___.

a. enabling self to be good at rote memorization
b. eliciting responses that demonstrate understanding
c. hampering cognitive development of learners
d. None of the above

Ans. b= eliciting responses that demonstrate understanding

Solution: Please go through lecture notes of week-8 (slide no.04) for better understanding.

QUESTION 3:

3) Which of the following is a pedagogical approach in teaching?
   a. inductive
   b. integrative
   c. instance-based
   d. intuitive

   Ans. b= integrative

   Solution: Please go through lecture notes of week-8 (slide no.05) for better understanding.

QUESTION 4:

4) According to the ___ approach, learners are the makers of meaning and knowledge.

   a. solitary learning
   b. passive learning
   c. constructivist learning
   d. metalearning

   Ans. c= constructivist learning

   Solution: Please go through lecture notes of week-8 (slide no.06) for better understanding.

QUESTION 5:

5) Which of the following is false about inquiry-based learning?

   a. is a form of passive learning
   b. includes problem-based learning
   c. generally used in small scale investigations
   d. starts by posing questions

   Ans. a= is a form of passive learning

   Solution: Please go through lecture notes of week-8 (slide no.07) for better understanding.

QUESTION 6:

6) The ___ model describes what effective teachers do in their classrooms to engage students in intellectually challenging work.

a. pedagogical
b. systematic
c. engagement
d. intellectual

Ans. a= pedagogical

Solution: Please go through lecture notes of week-8 (slide no.09) for better understanding.

QUESTION 7:

7) In experiential learning, experiences are structured to require the student to ___.

a. take initiative
b. make decisions
c. be accountable for results
d. all of the above

Ans. d= all of the above

Solution: Please go through lecture notes of week-8 (slide no.14) for better understanding.

QUESTION 8:

8) The following are the roles of an instructor in experiential learning, except___.

a. setting suitable experiences
b. posing problems
c. supporting students
d. blurring the boundaries

Ans. d= blurring the boundaries

Solution: Please go through lecture notes of week-8 (slide no.16) for better understanding.

QUESTION 9:

9) Kolb's experiential learning style theory is typically represented by a ___-stage learning cycle

a. three
b. five
c. four
d. seven

Ans. c= four

Solution: Please go through lecture notes of week-8 (slide no.19) for better understanding.

QUESTION 10:

10) People with ___ learning style are hands-on learners, and rely on intuition over logic.

a. converging
b. accommodating
c. integrating
d. emotional

Ans. b= accommodating

Solution: Please go through lecture notes of week-8 (slide no.25) for better understanding.
