A. Operant conditioning
B. Functional conditioning
C. Classical conditioning
D. Modern conditioning

Ans. C= Classical conditioning

Solution: Please go through lecture notes of week-2 (slide no.5) for better understanding.

4) The process by which organisms learn to respond to certain stimuli but not to others is known as ___.

A. stimulus generalization
B. stimulus appreciation
C. stimulus discrimination
D. stimulus differentiation

Ans. C= stimulus discrimination

Solution: Please go through lecture notes of week-2 (slide no.11) for better understanding.

5) Higher-order conditioning is intrinsically weaker than its first-order counterpart.

A. True
B. False

Ans. A= True

Solution: Please go through lecture notes of week-2 (slide no.12) for better understanding.

6) ____ is the process of gradually changing the quality of a response.

A. Shaping
B. Modeling
C. Cueing
D. Shifting

Ans. A= Shaping

Solution: Please go through lecture notes of week-2 (slide no.23) for better understanding.

7) The works of ___ were instrumental in engendering the dramatic shift from behaviorism to cognitive theories.

A. Edward C. Tolman
B. Jean Piaget
C. German Gestalt
D. All of the given

Ans. D= All of the given

Solution: Please go through lecture notes of week-2 (slide no.39) for better understanding.

8) ___ intelligence is the ability to perceive the visual–spatial world accurately and involves sensitivity to color, line, shape, form, space, and the potential for recognizing and manipulating the patterns of spaces.

A. Interpersonal
B. Spatial
C. Bodily-kinesthetic
D. Linguistic

Ans. B= Spatial

Solution: Please go through lecture notes of week-2 (slide no.48) for better understanding.

9) Sternberg proposed his theory in 1985 as an alternative to the idea of the ___.

A. general intelligence factor
B. multiple intelligences
C. specific intelligence factor
D. unconscious intelligence

Ans. A= general intelligence factor

Solution: Please go through lecture notes of week-2 (slide no.51) for better understanding.

10) Which of the following is not a kind of product in the structure of intellect model?

A. symbolic
B. classes
C. systems
D. implications

Ans. A= symbolic

Solution: Please go through lecture notes of week-2 (slide no.79) for better understanding.
